DETAILED ACTION

Continued Examination Under 37 C.F.R. § 1.114

1. A request for continued examination ("RCE") under 37 C.F.R. § 1.114, including the fee set forth in 37 C.F.R. § 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 C.F.R. § 1.114, and the fee set forth in 37 C.F.R. § 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 C.F.R. § 1.114. Applicants' submission filed on 13 August 2009 has been entered.

Restrictions

- 2. Restriction is required under 35 U.S.C. § 121 and § 372.
- 3. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
- 4. In accordance with 37 CFR 1.499, Applicants are required, in reply to this action, to elect a single invention to which the claims must be restricted.
 - Group I: Claims 1-4, 6-8, 21, and 24, drawn to an apparatus, classified in class 705, subclass 64;
 - Group II: Claims 13, 14, 16-20, 22, and 23, drawn to an apparatus, classified in class 705, subclass 75; and
 - Group III: Claims 25-27, drawn to a method, classified in class 705, subclass 67.
- 5. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special

Application/Control Number: 10/586,128 Page 3 - 20091019

Art Unit: 3621

technical features for the following reasons: Group I does not require a keypad configured to receive input of an amount of a transaction, a card reader configured to read a payment card to obtain payment card data from the payment card, and a subscriber identity module (SIM) card comprising a scheduler. Group II has a feature of storing a service-subscriber key (IMSI) used to identify a subscriber on a mobile telephony device (inherent to a SIM).

- 6. The inventions listed as Groups I and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the process as claimed can be practiced by an apparatus without at least a second processing means.
- 7. The inventions listed as Groups II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the process as claimed can be practiced by an apparatus that at least does not communicate with a virtual terminal server.
- 8. Restriction for examination purposes as indicated is proper because all these inventions listed in this action are independent or distinct for the reasons given above <u>and</u> there would be a serious search and examination burden if restriction were not required because one or more of the following reasons apply:
 - (a) the inventions have acquired a separate status in the art in view of their different classification;
 - (b) the inventions have acquired a separate status in the art due to their recognized divergent subject matter;

Application/Control Number: 10/586,128 Page 4 - 20091019

Art Unit: 3621

(c) the inventions require a different field of search (for example, searching different classes/subclasses or electronic resources, or employing different search queries);

- (d) the prior art applicable to one invention would not likely be applicable to another invention;
- (e) the inventions are likely to raise different non-prior art issues under 35 U.S.C. §101 and/or 35 U.S.C. §112, first paragraph.
- 9. Applicants are advised that the reply to this requirement to be complete must include (i) an election of a invention to be examined even though the requirement may be traversed (37 C.F.R. § 1.143) and (ii) identification of the claims encompassing the elected invention.
- 10. The election of an invention may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 C.F.R. § 1.144.
- 11. If claims are added after the election, Applicants must indicate which of these claims are readable on the elected invention.
- 12. Should Applicants traverse on the ground that the inventions are not patentably distinct, Applicants should submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case. In either instance, if the Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. §103(a) of the other invention.

13. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to JACOB C. COPPOLA whose telephone number is (571)270-

3922. The Examiner can normally be reached on Monday - Friday, 9 AM - 5 PM.

14. If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's

supervisor, Andrew Fischer can be reached on (571) 272-6779. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

15. Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
